DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1 and 2, drawn to Histogram Processing, classified in class 382, subclass 168.
 - II. Claim 3-20, 22-32, 33-38, 43-47, drawn to the specifics of the RIH, classified in class 375, subclass 240.08.
 - III. Claims 39-40, drawn to Histogram distance Calculations, classified in class 382, subclass 171.
 - IV. Claim 41 and 48, drawn to Searching the RIH, classified in class 382, subclass 170.
 - V. Claim 21, drawn to Motion Compensation, classified in class 375, subclass 240.16.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of groups I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because claim 1 does not require the specifics of the RIH calculation means. In other words the RIH of claim 1 can be calculated in any manner. The claims of group II define the RIH as a ratio, further showing that the specifics of group I, III, IV and V are not needed for patent ability.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named

Art Unit: 2613

inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
